Entrixa Pluse— Stand Alone Access Control System

Stand Alone Access Control System

The Realtime T7 is a reliable fingerprint attendance and access control device designed to streamline employee management and workplace security. Featuring a high-speed fingerprint sensor, user-friendly interface, and real-time data transfer, the T7 ensures quick and accurate attendance recording. It supports fingerprint, password, and RFID card verification, offering flexibility for diverse business needs. Ideal for offices, schools, factories, and retail environments, this device helps reduce time theft and enhances operational efficiency. With durable performance and seamless integration, the Realtime Biometrics T7 provides a smart, secure, and efficient attendance management solution for modern organizations
