Entrixa Pulse— Stand Alone Access Control System

Stand Alone Access Control System

The Realtime K2n/ K2s/ K9 is a high-performance fingerprint-based attendance and access control system designed to streamline workforce management and enhance workplace security. Equipped with a fast, precise fingerprint sensor, the K2N ensures accurate attendance tracking and prevents unauthorized access. Supporting multiple verification modes including fingerprint, password, and RFID card, it is ideal for offices, factories, schools, and commercial establishments. With real-time data syncing and easy integration with attendance software, the Realtime K2N provides efficient employee monitoring and record management. Choose Realtime Biometrics K2N for a reliable, secure, and user-friendly attendance solution.

Product Specifications

- Proximity Card Reader: Built-in
- Card Support Type: EM Cards
- Reading Distance: > 5 cm
- Storage Capacity: 2000 Card or Password
- Power Supply: 12V 2Amp
- Static Current: 65mA - 70mA
- Unlock Current: 80mA- 90mA
- Lock Type: Relay Output
- Working Temperature: 0°C - 60°C

Realtime K2n/ K2s/ K9

K2n

K2s

K9

Key Features

- * RFID Card
- * Access Control

- * Password
