## Entrixa Pluse— RFID Card Reader (Slave Reader)

### RFID Card Reader (Slave Reader)

The Realtime RF 10 is a versatile RFID-based access control and attendance system designed for offices, factories, schools, and commercial spaces. Featuring high-speed RFID card recognition, it ensures quick and accurate employee verification while preventing unauthorized access. The device integrates seamlessly with attendance management software for real-time data synchronization, making workforce monitoring easy and efficient. Its durable design and reliable performance make it an ideal solution for modern businesses seeking secure, efficient, and user-friendly access control. Choose Realtime RF 10 for smarter attendance management and enhanced workplace security. The Realtime RF 10M is an advanced RFID and biometric access control system offering enhanced security and efficiency for modern workplaces. Combining RFID card verification with optional fingerprint authentication, the RF 10M ensures accurate, fast, and secure employee attendance tracking. Designed for offices, factories, schools, and commercial environments, it delivers seamless integration with attendance software, real-time data updates, and robust access control management. With its durable build and reliable performance, the Realtime RF 10M provides businesses with a secure, efficient, and scalable solution for workforce management and facility access.

#### Product Specifications

- Wiegand: 26 / 34 bits
- Data Output: ABA Standard Format
- Response Speed: < 0.2 sec
- Proximity Time Distance: < 0.5 sec
- Proximity Range: upto 15 cm
- Working Temperature: 0°C to 60°C
- Antenna: in-built
- LED: Double Color LED
- Sound: Buzzer
- Proximity Reader: 125 Khz
- Mi-Fare Reader: 13.5 Mhz

#### Realtime RF 10/ RF10M

#### Key Features

- \* RF 10 (Proximity) Support
- \* RF 10m (MiFare Card) Support
- \*Dual Colored LED \*Buzzer Sound in-built

#### Product Line and Ideas under Entrixa

- **Entrixa Pulse** — fingerprint readers
- **Entrixa Vision** — facial recognition systems
- **Entrixa Aadhaar** — Aadhaar enabled devices
- **Entrixa VaultCloud** — cloud-based access management platform
